

CONTACTLESS DEBIT CARDS

Arriving Soon

802 Credit Union is excited to announce a contactless debit card upgrade for former VTVAFCU members. We are pleased to provide this added convenience, simplicity, and speed to your debit card transactions.

Be on the lookout for your new card. It will arrive via mail in a non-descript envelope in mid-September. When you receive your card, it is important that you **Do Not** activate it immediately.

Keep your current card

You must continue to use your current VTVAFCU debit card through October 1st. Your new 802CU card will not work prior to this date.

Activate on or AFTER October 2nd

You will not receive a separate PIN mailing for this card. Your contactless debit card will include an activation instruction sticker with a phone number to call. You will be able to set your own debit card PIN when you call to activate your new card on or after October 2nd.

Contactless Cards

No more waiting for the chip card payment to process and the annoying buzzer to remind you to remove your card for purchases. Just tap and go.

It's easy to pay with a contactless card. Just look for the symbol at checkout and tap your card to pay. Use the chip reader or swipe your card if a store doesn't have contactless readers.

It's safe, highly secure and has the same protection as chip payment. When you tap your contactless chip card, a cryptographic code that's unique to the card and to the transaction is created. Therefore, issuers can automatically detect and reject any attempt to use the same transaction information more than once.

If at any time you have questions, please do not hesitate to contact us at:

- VTVAFCU: 802-295-5104
- 802CU White River: 802-295-7805
- 802CU Toll-Free: 800-728-5871
